

Strengthening Caribbean Infrastructure

Providing over 30 years of comprehensive solutions and project support

When you work with Michael Baker International, your mission is our mission. We proudly partner with the U.S. Army and government agencies to strengthen infrastructure across the Caribbean. With every project, we leverage the strength and diversity of our multidisciplinary firm to provide comprehensive services throughout the entire project life-cycle, from programming through completion.

As your partner, we are ready to meet your project challenges wherever support is needed. Our wide range of services include master planning, facility design, resiliency planning, emergency response and disaster recovery. We keep projects on time and on budget using the right plans, people, processes and partners, many of which are diverse small businesses. Recognizing the value and expertise these companies bring, we are proud to aid in their growth while helping to strengthen critical infrastructure for generations to come.

Michael Baker has completed more than 80 projects in the Caribbean
