

# Agency Staffing

With Michael Baker International, our clients benefit from the agility to have staff in place quickly. Our service offering spans a wide breadth of talent and disciplines to address your projects' needs. We provide professional and personalized staffing with an impressive support system to manage any sized project.

## Providing Outstanding Customer Service to Meet Urgent Deadlines

We support client agencies at whatever level is needed, from on-call as needed to full-time multi-person departments, and from minor use permits to major specific plans. By tailoring services to an agency's specific needs, our contract planners provide an effective solution to varying workloads.

Our focus is on people and places to improve communities. We routinely provide extension of staff services for municipalities and agencies that exceed expectations for planning, housing, redevelopment, finance, GIS, project management and beyond. We provide a cost-effective and flexible approach, assigning appropriately experienced and personable staff to match clients' work needs for a matter of weeks, months or longer. Our knowledgeable staff can work at selected levels of coverage tailored to the client's need and based on the client's budget.
