

Environmental Compliance Joint Venture

Supporting Your Environmental Mission Requirements

Proven Successful Partners

The Michael Baker International (Baker)-AECOM Environmental Compliance Joint Venture (JV) combines the resources, regulatory expertise and worldwide capabilities of two leading engineering and consulting firms dedicated to the success of the Naval Facilities Engineering Systems Command (NAVFAC), Atlantic.

Together, the team members have more than 75 years of experience providing engineering support to the Navy. In addition, as JV partners on multiple Department of Defense (DoD) contracts, Michael Baker and AECOM have successfully co-delivered more than \$200 million of work under 90+ task orders in the past 12 years. With this experience, we are committed to solving your environmental challenges with intelligent solutions that positively impact the bottom line and reduce risk and future environmental liabilities.

ID/IQ contract for A-E work for oil management, waste/hazardous material management, toxic substances control and other environmental compliance engineering support for Navy, Marine Corps and other DOD installations and federal agencies.

Contract Number:
N62470-22-D-0007

Contract Holder:
Baker-AECOM Environmental Compliance Joint Venture

Contracting Agency:
NAVFAC Engineering Systems Command Atlantic
6506 Hampton Boulevard
Norfolk, VA 23508

Contract Capacity:
\$75 million

Ordering Period:
December 7, 2021–December 6, 2026 (base year + four option years)

Contract Type:
Single Award IDIQ, Firm Fixed Price Task Orders

ADDING STRENGTH TO OUR TEAM

We augment our team's resources with qualified subconsultants, including small businesses with excellent reputations in their areas of expertise.

Potomac-Hudson Engineering, Inc.
(small business)

Stantec Consulting Services, Inc.

Owens & Associates, Inc.
*(small business/
veteran owned)*

Precision Planning & Simulations, Inc. (PPS)
*(small business/
veteran owned)*

SCOPE OF SERVICES

All aspects of environmental engineering services related to the following primary compliance programs.

Petroleum Storage Tank (PST) and Assets Compliance

- PST Management Plans
- Certified Tank Inspections
- Tank Closures and Major Repairs
- Petroleum Pipeline Integrity Evaluations
- Site Checks at Suspected Leaking PST Sites
- Tank Operator and Oil-Handling Personnel Training
- Tank and Pipeline Leak Tightness Testing
- PST Release Detection Equipment Testing and Certification
- PST Overfill Prevention Equipment Testing
- Design of PST and Fuel Facility Improvements
- Spill Prevention Control and Countermeasures Plans

Oil Spill Preparedness and Planning Compliance

- Facility Response Plans (FRP)
- Oil and Hazardous Substance (OHS) Spill Contingency Plans
- Oil and Hazardous Substances Spill Response and Spill Contingency Plans
- Integrated Contingency Response Plans (ICP)
- Drills and Exercises to Meet National Preparedness for Response Exercise Program (PREP) Guidelines
- Navy On-Scene Coordinator (NOSC) and Other Spill Response Training
- Natural Resources Damage Assessment Pre-incident Plans

Waste/Hazardous Material Management Compliance

- Hazardous Waste (HW), Solid Waste (SW), PCB, Regulated Medical Waste (RMW) Management
- Pollution Prevention (P2) Plans
- Emergency Planning and Community Right to Know (EPCRA) Toxic Release Inventory (TRI) Form R Reporting and Non-TRI EPCRA Reporting and Permit Applications
- Hazardous Material (HM), Waste Material Potentially Posing an Explosive Hazard (MPPEH) Management
- Asbestos-Containing Materials (ACM) and Lead-Based Paint (LBP) Program Management

Miscellaneous Taskings

Other environmental compliance requirements incidental to the primary compliance programs that may be related to petroleum storage tank and assets compliance, oil spill preparedness and planning compliance, and/or waste/hazardous material management compliance, such as:

- Laboratory Services
- Environmental Condition of Property (ECP) Surveys
- Sustainability Services
- Environmental Management System (EMS) and Compliance Auditing Support
- GIS Mapping
- Other Environmental Liabilities (OEL) Data Collection and Management
- Base Realignment and Closure (BRAC) Environmental Program Support

**SUPPORTING THE NAVY'S ENVIRONMENTAL COMPLIANCE MISSION
TO CONSERVE, PROTECT AND RESTORE THE ENVIRONMENT AND NATURAL
AND CULTURAL RESOURCES FOR FUTURE GENERATIONS.**
