

# Empowering Communities Through Broadband

At Michael Baker International, we are dedicated to helping our clients bridge the digital divide and contribute to an ecosystem that delivers reliable, high-speed internet to everyone.

Our Broadband Center of Excellence (CoE) collaborates with clients to offer innovative and sustainable broadband planning and implementation solutions. We empower communities and organizations with the tools and insights needed to navigate the complex landscape of broadband connectivity. Our team of experienced professionals is committed to supporting the nation's Internet for All goals through a range of specialized services.
