

Supporting Your Mission: Safety, Security and Protection

A Service-Disabled Veteran-Owned Small Business JV with Expanded Capabilities and National Reach

Miller-Remick – Michael Baker International JV, the SBA-approved Mentor Protégé Joint Venture (JV) of Miller-Remick and Michael Baker International, draws on the global and local experience across our full range of architecture and engineering project types and sizes. With several of our professionals having served in both Federal client and consulting roles, our team has the fortitude and knowledge to complete successful missions.

Our combined experience serving highly complex facilities and working in sensitive environments with intense safety protocols has set us apart in the federal marketplace. Our core values and capabilities mimic that of The Nation's mission; we strive for excellence to ensure safety, security and protection of information, the environment and the communities in which we live and work.

COMMITMENT TO EXCELLENCE

Miller-Remick is a Service-Disabled Veteran-Owned Small Business providing a comprehensive array of consulting engineering and construction management services with a focus on leadership, quality, and responsiveness.

We are fully staffed with Project Management and Engineering professionals specializing in Mechanical, Electrical, Structural, HVAC, Plumbing, Fire Protection, Piping, Process, and Controls. This full-service team brings the experience and expertise necessary to deliver industry-leading solutions to our clients.

Michael Baker is a leading provider of engineering, development, intelligence and technology solutions with global reach and mobility.

With over 4,000 employees in more than 85 office locations, our focus is on the safety and security of people across the world through planning and civil engineering improvements to infrastructure and the environment, and through the protection of our quality of life and freedom in support of national and international security.
